MAGNUM

**ELNAGH IS AN
INTEGRAL PART
OF THE HISTORY
OF THE ENTIRE
RECREATIONAL
VEHICLE INDUSTRY
WITH 70 YEARS OF
ACTIVITY BEHIND IT**

Before telling a story, Elnagh tells its vision, a point of view on the future that began when no one was talking about aesthetics, design and made in Italy.

Every project is function and emotion, every detail is research and awareness: this is the sense of creating for Elnagh, drawing a movement of ideas around the journey.

Elnagh is the brand for those looking for practical, functional solutions for their motorhome travel. It offers a complete range of models and types.

Historic ranges with a long tradition, recognised and recognisable, which are never old fashioned.

WHY CHOOSE ELNAGH

Specialisation, solidity and strength

70 years of experience that together with the competence of the production team, offer a vehicle that lasts over time.

Functional spaces and attention to comfort

Vehicles that always associate attention to construction technologies with a sensitivity for living comfort.

The reliability of a well-built vehicle

10-year guarantee against infiltration, high-performance materials and state-of-the-art manufacturing processes.

CONSTRUCTION TECHNOLOGY

88 | Elnagh 2024

Breathe fresh air

The Elnagh design team studied the optimum way to even out the temperature and avoid condensation.

Wall units installed by leaving space from the wall of the motorhome. Air flows evenly, preventing condensation and mould.

Anti-condensation panels spaced from the wall in the living and sleeping areas for air and heat circulation.

89 | Elnagh 2024

THE GARAGE

90 | Elnagh 2024

Fibreglass lower cover to **protect the compartment from outside moisture.**

The interior is 30-mm thick plastic, with structural strips for greater rigidity and tightness.

The **floor is made of linoleum** to protect the loading surface from wear and make it easier to clean.

91 | Elnagh 2024

Magnum 532

- **HEATED** > Maxi-garage with heating vents
- **VARIABLE VOLUME** > Manual bed height adjustment system on transversal bed, electrical system on central bed and Baron 20 allows you to have more space wherever you want, in your room or in the garage
- **EASY TO LOAD** > Double access door, creating through-loading compartment. The doors open at 180°
- **LIGHTED** > Maxi-garage with light
- **LONG LASTING** > Anti-rain, anti-splash and anti-frost rubber weatherstrips ensure opening even at low temperatures
- **PAYLOAD*** > 300 KG max.

* Weight that can technically be loaded which affects the type-approved places or the remaining total payload

INTERNAL STOWAGE

Magnum 532

Stowage in the cab

Open cab cut-out designed for convenient stowage. In the overcab models, convenient stowage pockets are provided. The motorhome models are equipped with a large container on the side of the passenger seat where you can store all your accessories.

Maxi basket in the kitchen

The baskets inside the kitchen unit doors are spacious stowage of provisions or accessories. Vertical doors and large drawers, with internal drawer for cutlery or accessories.

Wardrobes

All wardrobes and cabinets are spacious and equipped with hangers.

Elevating beds

A simple mechanism allows you to raise the slatted bases in the beds and make use of the wardrobes and stowage space under the beds.

Baron 579

T-Loft 529

Stowable steps

The bed steps have a dual function: they facilitate access to the beds and can be stowed if necessary.

Magnum 532

CHASSIS FIAT

Created from the continuous cooperation with manufactures, Fiat Ducato is the perfect combination of chassis and living unit. There are many presettings to facilitate the transformation, a specific electrical system and a cab designed with reinforced uprights and pre-cut roof.

Euro 6D Final

140 CV

180 CV

FIAT

STANDARD EQUIPMENT

DASHBOARD

Ducato offers a brand dashboard:

- Comfortable & User friendly
- White Backlighting, extended to every single command

ELECTRIC POWER STEERING SYSTEM

Electric power steering system on whole range:

- Power supply technology adapts steering effort to vehicle speed
- Increased steering precision
- Higher driving pleasure, while reduces effort during parking maneuvers
- Improves fuel consumption and reduce CO2 emissions thanks to the adaptive energy consumption Keep current steering ratio

STEERING WHEEL AND GEAR LEVERS

- Car-like design - three spoke style
- The gear lever is more ergonomic and rounded, with an elegant glossy finish.

ESC: Electronic Stability Control

- CROSS WIND ASSIST. Through the use of brakes, intervenes to help stabilize the vehicle through strong crosswinds, helping to keep the vehicle from drifting out of its lane.
- TRAILER STABILITY CONTROL SYSTEM. Detects when a trailer is starting to oscillate and corrects any dangerous trailer swing, through a combination of either torque reduction and/or individual wheel braking.
- POST COLLISION BRAKING SYSTEM. Intervenes in the event of an accident, automatically applying brakes to prevent secondary potential collisions.

CRUISE CONTROL for complete relaxation at the wheel, the speed is constant and the foot is free to move. Includes Speed limiter, which prevents you from exceeding the set maximum speed.

ECOPACK consisting of: - Start and Stop system: for reduced fuel consumption. Automatically restarts at the touch of the accelerator pedal - Smart alternator: intelligent alternator that provides only the energy needed - Electronic fuel pump: for energy saving and high fuel efficiency.

MANUAL CAB CLIMATE control enhanced and diffused ventilation to the entire cab.

- CITROËN CHROME FRONT GRILLE

QUALITY AND TEST

Because we know that satisfying our customers depends greatly on the quality of our products.

Elnagh puts its own experience and expertise at the service of every van produced and follows it throughout the production stage with inspections and tests from design to delivery that meet European standards.

The same quality standards are demanded of suppliers: for the most strategic components, a check is carried out when the material is received and before it is used in production.

Check of operation and correct installation of the electrical systems.

Test on operation of the gas pipes.

Correct installation of the hydraulic systems.

Specific testing in climatic chamber to check the resistance, duration and performance of the materials selected at extremely high/low temperatures.

Performance tests on the components used. Durability of materials, resistance to stress, reliability and compliance with European regulations in the design of the seatbelt unit.

NOTES

ELNAGH reserves itself the right to change the characteristics and the furnishings of all its models with no advance notice required; all data contained in this leaflet must therefore be considered approximate and non-binding.

Despite thorough checks of the contents, we cannot exclude possible printing and/or translating errors.

This catalogue does not constitute contractual documentation.

For the above reasons, all information relating to the specifications and equipment of each model must be requested prior to purchase from the dealer, who, as the sole contact person, will confirm or correct the data published by updating the customer on the characteristics and actual equipment of the relevant vehicle being negotiated.

Any reproduction, including in part, of the text or of the content of this document is prohibited.

The indicated weights are exclusively approximated. Tolerances of +/-5 % are allowed.

Generally speaking, special equipment and options increase the no-load weight and entail a reduction in the payload.

We hereby decline any and all responsibility in case structural changes are made to the vehicle; any assembly, disassembly or changes carried out by unauthorised workshops may jeopardise your safety and cause the warranty clauses to be forfeited.

For additional information on installation and technical details, please contact one of our dealers.
